

LEGAL & METHODOLOGY DISCLAIMER

This Disclaimer applies to the LA10T platform (“LA10T”, pronounced “Latent”), including its mobile application, website, dashboards, analytics tools, blockchain components (if applicable), and related services (collectively, the “Platform”).

All references to “LA10T”, “we”, “us”, or “our” in this Disclaimer refer to the operator of the Platform.

By accessing or using the Platform, you acknowledge and agree to the terms set out in this Disclaimer.

- **Nature and Purpose of the Platform**

LA10T is a behavioural intelligence and participation measurement platform that captures, structures and presents evidence of real-world interactions, engagement and programme participation.

The Platform is designed to support decision-making, programme evaluation, engagement measurement and impact visibility. It is not represented as a certification, assurance or regulatory compliance system.

- **No Warranties**

The Platform and Mobile Application, including all content, data, features, tools, calculations, indicators, dashboards, reports and outputs, are provided on an “as is” and “as available” basis, without warranties of any kind, whether express, implied, statutory or otherwise.

To the fullest extent permitted by law, LA10T disclaims all warranties including accuracy, completeness, fitness for a particular purpose, availability, reliability, security, non-infringement or error-free operation.

- **Methodological Framework and Standards Alignment**

Where the Platform references environmental, carbon, sustainability or impact-related indicators, such indicators are derived using internally developed methodologies informed by internationally recognised principles, including alignment with ISO 14064, ISO 14067 and the Greenhouse Gas Protocol.

Unless expressly stated otherwise:

- Outputs are indicative estimates
- Outputs are not full life cycle assessments
- Outputs are not verified greenhouse gas inventories

Defined system boundaries, assumptions, exclusions, proxies or data limitations may be applied and may differ from those required for formal reporting, certification or statutory disclosure.

- **Informational and Behavioural Evidence Purpose**

All outputs generated by the Platform, including environmental indicators, behavioural insights, scan records, dashboards, rankings, rewards and reports, are provided for informational, analytical and awareness purposes.

Scan events, timestamps, locations and interaction records constitute verifiable behavioural and participation evidence, demonstrating engagement and programme uptake and do not assert environmental performance outcomes, certifications or compliance status.

- **No Verification, Certification or Compliance Determination**

LA10T does not perform third-party verification, validation, assurance or certification, including under ISO 14064-3, ISO 14067, the GHG Protocol or any similar standard.

Accordingly, Platform outputs do not constitute:

- Certified carbon footprints
- Verified emissions reductions

- ESG ratings or attestations
- Regulatory, statutory or financial disclosures

Use of the Platform does not replace independent measurement, reporting or verification where such processes are required.

- **Dashboards, Reports and Audit-Support Use**

Dashboards, reports and structured outputs generated by LA10T are intended to support:

- Internal management and governance review
- ESG and sustainability programme monitoring
- Policy and campaign evaluation
- Pre-audit preparation and audit support

Such outputs are decision-support artefacts and supporting evidence and do not constitute audit opinions, certifications or assurance statements.

- **No Professional Advice**

Nothing on the Platform constitutes legal, financial, investment, tax, accounting, regulatory, environmental or professional advice. Users remain responsible for evaluating suitability and seeking independent advice where required.

- **No Claims of Reduction, Offset or Neutrality**

Unless expressly stated otherwise, LA10T does not claim that:

- Activities result in verified emissions reductions
- Emissions are offset, neutralised or compensated
- Any user, product, organisation or programme is carbon-neutral, net-zero or ESG-compliant

References to avoided impact or behavioural contribution are descriptive and illustrative only.

- **Token, Reward and Digital Mechanisms**

Any points, credits, tokens or digital representations offered through the Platform are utility-based participation mechanisms intended solely for engagement and non-financial use.

They do not constitute securities, investment products, capital market instruments or guarantees of value and may have no transferable or redeemable value outside the Platform.

- **Blockchain Infrastructure Disclaimer**

The Platform may utilise blockchain or distributed ledger technology solely as a technical infrastructure layer for data integrity, traceability and record-keeping purposes.

Such use of blockchain technology:

- Does not constitute a financial system, payment system or investment platform
- Does not imply decentralised governance, financial custody or asset issuance
- Does not guarantee immutability, permanence or availability of records

LA10T does not provide custody services, wallet management, private key storage or transaction validation on behalf of users. Users remain solely responsible for any interactions with external blockchain networks, if applicable.

The Platform makes no representation or warranty regarding the performance, security, availability or continuity of any underlying blockchain network or third-party infrastructure.

- **Third-Party Content and Services**

The Platform may rely on third-party data or services. LA10T does not control or warrant the accuracy, legality or availability of such content and assumes no liability arising from third-party dependencies.

- **User Responsibility**

Users access and use the Platform at their own risk and remain responsible for compliance with applicable laws and regulations in their jurisdictions. The Platform does not guarantee compliance with any specific framework, standard or certification scheme.

- **Updates and Evolution**

LA10T may update methodologies, assumptions, data sources and system boundaries from time to time to reflect evolving standards, data availability or technical improvements.

- **Acceptance**

By accessing or using LA10T, users acknowledge that they understand the behavioural, indicative and non-certifying nature of the Platform and accept this Disclaimer as part of the Terms & Conditions.
